

Chiller Sport

Clean and refreshing water on demand

The Chiller Sport delivers on a promise of endless refreshing chilled water for your workplace. It features multi-stage filtration and ultraviolet light sanitization to reduce bacterial growth and prevent potential biofilm buildup. The business friendly design and guaranteed reliability ensure you have all the quality cold and hot water your employees and guests need.

Advanced Technology

The Chiller Sport has three core technologies:

1. High Performance Filtration: This model can be configured with four stage reverse osmosis filtration or multistage carbon filtration depending on water conditions. These processes remove water contaminants and chlorine to improve water taste and odor.

2. In-Tank UV: An in-tank ultraviolet light reduces bacterial growth to guarantee fresh clean water.

3. BioCote® Antimicrobial Protection: Antimicrobial technology that is proven to be effective against a wide range of microbes such as odor causing and staining bacteria, mold and fungus. BioCote reduces microbes by up to 99.99%

Good for the Earth

Waterlogic coolers have been shown to reduce carbon footprint by up to 72% compared to bottled water coolers*.

Bottleless water coolers reduce plastic bottle contribution to landfills.

The Chiller Sport is ENERGY STAR certified.

Chiller Sport Features

- Unlimited cold and hot filtered water on demand
- UV technology to reduce bacterial growth
- BPA Free and better for the environment
- Large dispensing area to fit sport bottles
- BioCote antimicrobial protection to reduce the spread of germs
- Easy connection to your existing water supply
- Option for drip tray drainage
- Tower model to free up counter space

Water Options	Technical Features	
	Type available	Tower
	Tower dimensions	13.5" (W) x 45.5" (H) x 14.5" (D) 343 mm x 1029mm x 368mm
	Compressor	120V/60Hz
	Dispense area height	9.5"
	Weight	Tower: 26.3kg (58lbs)
Symbols	Recommended filtration	
 Cold water  Hot water	Sediment Block, Carbon Block (CBC), Granular Activated Carbon (GAC)	
	Additional features	
	Capacity	Hot Tank: .0396 gallons Cold tank: 1.058 gallons/ tower
	Water temperatures	
		Cold: 40°F Hot: 188°F
